Claremont Unified School District Weed Treatments
District Update March 2017

In June 2015 Claremont Unified School District evaluated its use of the chemical known as “Roundup” to manage weed control and at that time made the move to use certified organic products. Our goal is to use greener practices that are truly sustainable to treat campus locations with organic products such as Avenger and Finalsan. Both of these products are certified organic. Avenger is citrus oil based and Finalsan is ammoniated soap of fatty acids. CUSD is committed to sustainable practices and to the welfare of its students and employees. If anyone has any questions regarding CUSD practices and procedures of the Service Center, please contact our office at 909 398-0673.

Sincerely,

Rick Cota
Executive Director of Facilities
