Medical Exemptions

1. For admissions on or after January 1, 2021, what is required for a medical exemption to a required immunization?

Starting January 1, 2021:

- Medical exemptions can only be issued through the California Immunization Registry – Medical Exemption website (CAIR-ME) by physicians licensed in California.
- Schools and child care facilities may only accept from parents new medical exemptions that are issued using CAIR-ME.

2. Are medical exemptions filed for children in attendance at a California child care facility or school before 2021 valid in later years?

A medical exemption filed at a pre-kindergarten facility or school remains valid until the earliest of:

- When the child enrolls in the next grade span (TK/K-6th grade, 7th-12th grade)
- The expiration date specified in a temporary medical exemption
- Revocation of the exemption because the issuing physician has been subject to disciplinary action from the physician’s licensing entity.

3. A doctor has told a child’s parents that their child needs a medical exemption from a required immunization. How do parents get a medical exemption for their child?

Starting January 1, 2021, all new medical exemptions for school and child care entry must be issued through CAIR-ME. Parents can create an account and log in to CAIR-ME to submit a request for a medical exemption. Next, the child’s doctor can complete the medical exemption in CAIR-ME and print a copy for the parents to give to the child’s school or child care facility.

4. When should schools and child care facilities sign up to use CAIR-ME?

Schools and child care facilities should register to use CAIR-ME once they receive a medical exemption issued using CAIR-ME for one of their enrollees. Schools and child care facilities can email medical exemptions@cdph.ca.gov to request access to the CAIR-ME website. After registering and creating an account, schools and child care facilities will be able to see the medical exemptions in CAIR-ME that have been issued for children that attend their school or child care facility.

5. How early may a physician issue a medical exemption in CAIR-ME before a child first enters a grade span starting in 2021?

A medical exemption may be issued in CAIR-ME no more than 12 months before a child first enters a grade span (grade spans are birth-preschool, TK/K-6th, and 7th-12th).
6. Which medical exemptions in CAIR-ME will the State of California Department of Public Health (CDPH) review?

Starting January 1, 2021, new medical exemptions must be issued using the medical exemption website CAIR-ME. Under Senate Bills (SB) 276 and SB 714 (Pan, 2019), CDPH is required to review exemptions in CAIR-ME when:

- A school's immunization rate falls below 95% or
- A doctor writes more than 5 medical exemptions per year beginning January 1, 2020 or
- A school fails to provide reports of vaccination rates to CDPH.

CDPH may also review a medical exemption if CDPH determines it is necessary to protect public health.

7. Who at CDPH will review my child's medical exemption in CAIR-ME?

Medical exemptions reviewed based on the specific criteria under SB 276 and SB 714 will be reviewed by clinical staff at CDPH with expertise in immunization. Only the State Public Health Officer, or a physician they designate from the CDPH's immunization program, can revoke a medical exemption.

8. Does a child with an existing medical exemption in CAIR-ME need a new medical exemption if the child enrolls in a new school or child care facility within the same grade span?

No. While a new medical exemption does not need to be issued, the school or child care facility information listed in CAIR-ME for the exemption must be the same as the new school or child care facility. Parents must log in to CAIR-ME, update the school or child care facility information, and show proof of the change to the new school or child care facility. Parents will be able to print a copy of the changes to show the school or child care facility. The new school or child care facility can also log in to CAIR-ME to confirm that the medical exemption is listed for their school or child care facility.

9. What happens if my child's medical exemption in CAIR-ME is revoked? May I appeal?

SB 276 and SB 714 provide an appeal process for parents if CDPH revokes a medical exemption because the exemption did not meet applicable Centers for Disease Control and Prevention (CDC), Advisory Committee on Immunization Practices (ACIP), and American Academy of Pediatrics (AAP) criteria or the standard of medical care. Parents will receive information about their options if their child’s medical exemption is revoked. Parents will have 30 days to appeal.

Appeals will be reviewed by an independent expert panel appointed by the California Health and Human Services (CHHS). The panel’s decision shall be adopted by CHHS and is final.

10. Who can access the medical exemption website CAIR-ME?

CAIR-ME is available to parents/guardians seeking a medical exemption, California-licensed physicians, schools and child care facilities, local health departments, the Medical Board of California, the Osteopathic Medical Board of California, the California Department of Public Health, and the
11. To meet the chickenpox immunization requirement for TK/K-12 admission or for advancement into 7th grade, may a school accept an immunization record that indicates a "history of chickenpox disease"?

No, this is not sufficient documentation to meet school requirements. A medical exemption may be used for a child who had chickenpox disease that was documented by a physician. Starting in 2021, new medical exemptions must be issued using CAIR-ME.

Medical Exemptions Prior to 2021

12. For admissions on or after July 1, 2019, through December 31, 2020, what was required for a medical exemption to a required immunization?

Starting July 1, 2019, a parent or guardian must submit a signed, written statement from a physician (MD or DO) licensed in California which states:

- The specific nature of the physical condition or medical circumstance of the child for which a licensed physician does not recommend immunization.
- Each specific required vaccine that is being exempted.
- Whether the medical exemption is permanent or temporary.
- If the exemption is temporary, an expiration date no more than 12 calendar months from the date of signing.

13. For admissions prior to July 1, 2019, what was required for a medical exemption to a required immunization (per 17 CCR section 6051)?

A parent or guardian must submit a written statement from a licensed physician (MD or DO) which states:

- That the physical condition or medical circumstances of the child are such that the required immunization(s) is not indicated
- Which vaccines are being exempted
- Whether the medical exemption is permanent or temporary
- The expiration date, if the exemption is temporary.

Personal Beliefs Exemptions
1. What were the main changes Senate Bill (SB) 277 (Pan, 2015) made to the immunization requirements for children entering child care or school?

Since January 1, 2016:

- Parents or guardians of students in any school or child-care facility, whether public or private, are no longer allowed to submit a personal beliefs exemption to a currently-required vaccine.
- Students are no longer required to have immunizations for entry if they attend:
  - a home-based private school or
  - an independent study program and do not receive classroom-based instruction.
- Students who have an individualized education program (IEP) should continue to receive all necessary services identified in their IEP regardless of their vaccination status.
- However, parents or guardians must continue to provide immunization records for these students to their schools, and schools must continue to maintain and report records of immunizations that have been received for these students.
